Showing versus *Telling* writing

Written by HBS Third-Graders
January 26, 2021

The nice river with the mountains reflecting off the river. The green trees just like broccoli, so so so green and smooth. The cloud's like a pillow. Just think, pillows lying down on your bed eating brookie and laying on your pillow. So much fun!

Orange and green trees swaying with the breeze. Trees feeling smooth. They're tall trees and short trees. The river is moving slowly. The mountains are big! Wonderful colorful orangey clouds and light blue sky!

It was a nice lake, with a forest and some beautiful mountains far in the background. There were big, puffy, white, clouds that looked like marshmallows, floating above the beautiful mountains that were far in the background. There were tall green trees around the lake. The amazing scenery reflected off the beautiful water. It looked like there was a whole other world under the water.

The river is twisting and turning through the mountain range. The sky is purple and orange. In the mountain range, there are lots of trails for you to go on for fun. It smells like the sea.

In front of a magnificent forest lays a shimmering silver lake. Light clouds danced over the forest. Majestic gray mountains rise up in the background. A light green hill climbs up towards the mountains. The sky glitters on top of everything. Trees of all shapes and sizes and colors spout up from the ground. Tall ones, short ones, green ones, and orange ones but all are equal. In the end, everything is peaceful.

The river was surrounded by trees. The sharp dewed grass stood on end, covered with lake water. The sky and clouds are as gloomy as the color gray, some gray, some pink, some lavender. The back landscape looked like a movie. The bushes are orange and green. Algae ate at the land. But not too much. Just as tiny as lily pads. Only a patch of grass. The hot water. The water glistened.

The canyon is so pretty,
orangey reddish brown. Dusty
rock as far as the eye can see.
So hot and bumpy. Green grass
and rivers at the bottom. The
sunset was yellow, orange, red,
pink, and purple. The canyon is
so pretty.

The rocky canyons spread across the landscape. A beautiful sunset casts a magnificent glow over the canyons with huge slopes! Glaciers carve rivers twisting and turning like a slippery snake through everything making a magnificent sight.

The sun was setting, the clouds were orange and yellow other vibrant colors everywhere also some cool purple, pink stretched across the horizon. Many trails throughout the rocky figures, the river, the colors, then the scary drop. Sort of a GIANT mesa in a way. Amazing views. **THE GRAND CANYON...**
From the beautiful view it looks like you can walk on the clouds into the beautiful sunset. The layers of solid rock.

The river of the Grand Canyon is the best I have ever seen. It is so colorful. I love the lines of time in the canyon rocks.

It was a beautiful river with lots of rocks and shiny water clear like crystal. I think it was warm. It looks like a canyon. It reminded me of a savannah.

THE ROCK IS RED, PURPLE, WHITE, AND PINK. THE SUNSET MAKES THE SKY PURPLE PINK AND YELLOW. THE STREAM IS FLOWING UNDER THE CANYON. IN THE DISTANCE, THERE IS A HILL. IN SOME PLACES, THERE ARE BUSHES THAT ARE NEAR THE STREAM. THE ROCKS WERE SHAPED TO BE FLAT AND TALL. SOME ARE REALLY BUMPY, SOME MOVE AND FLOAT. THE ROCKS WOULD BE EASY TO CLIMB. THERE ARE SOME TREES NEAR THE ROCKS AND NEAR THE STREAM. THE GRASS IS GREEN AND LUSCIOUS. IT COMES AFTER THE STREAM. THE CLOUDS ARE PINK FROM THE SUNSET.

The sky looks like lava. The mountains look like red rocks. The river looks like the blue sky. The grass is like the greenest emeralds!

Smooth water skimming the land with the sun reflecting off the water. The beautiful orange sunset colored everything. Even the beautiful steam from the geyser was colored a magnificent orange! The clouds were colored a beautiful orange. The landscape was colored by beautiful sights!

THE BEAUTIFUL SUNRISE RISING BUMPING INTO THE CLOUDS
THE CLOUDS RISING UP TO THE SKY SMOKE FLYING TO THE
CLOUDS DISAPPEARING QUICK. THE TREES ARE WAVING
AROUND BECAUSE OF THE WIND. SAND FLYING AROUND
ROLLING INTO THE WATER. THE SAND MAKING THE WATER
DARKER ROCKS COMING TO THE SAND THEN DIGGING
UNDERGROUND. WAVES COMING INTO THE SAND SAND
TURNING DARK AT THE SHORE. THE GUISER STEAMING WITH
SMOKE MAKING IT HARD TO BREATHE FISH HOPING IN AND
OUT OF THE WATER BOATS ROAMING AROUND THE LAKE.
FISHERMAN SITTING ON THE DOCKS SWITCHING BAIT TRYING
TO CATCH A BIG LARGEMOUTH BASS.

THE SUNSET GOING DOWN AND THE
SMOKE COMING OUT OF THE WATER.
THE CLOUDS ARE TURNING ORANGE
AND THE SKY IS TURNING DARK
BLUE. THE MOUNTAINS IN THE
DISTANCE ARE AMAZING.

A beautiful sun dies down into the
ocean sea while a geyser flies high.

The sun was hot on my face. Birds chirping in the forest. I see white clouds on the bright blue sky. The sweet smells of the forest drifting on the wind. I wonder if there is some shade under the fallen tree. A rattlesnake in the dead bushes. I should run away now.

The light brown tree was falling on light gray and light red rocks, with light green bushes near the light brown tree. The blazing sun was out and shining like the brightest star in the sky. Clouds were as puffy as cotton candy and white as snow.

Bushes are everywhere. It breaks to the touch. It's dark gray. The bushes cover half of the land. The sun shines bright and booming down on me. The trees are lime green like a green apple. Most trees are lime but some are brown. Bushes rocks are both dark gray and smooth. It's a sunny day. The sky is light blue. It's the color of the sea.

The blue sky shines over the thorn patch, over the trees. I can hear the birds chirping. I can feel the tree. It's smooth, tall, and probably fell down. I see more in the distance. The rocks smell like dirt, dirty dirt. The clouds make it just the right temperature.

It has the sun that shines so bright just like a diamond. A branch is so big that you can lay on it. The view is so nice that you're in it like you are in a movie. The grass is too green. There are rocks 5 feet long. I want to go there sometime.

On one side it is covered in white coral type bushes. They all appear to be dead on the other side. It's full of green healthy bushes as if it was a line between life and death. In between them, tree roots that look like a dinosaur head. The sun makes a rainbow in the eye, literally. The lake in the green healthy bushes is positioned just right to look like it is being eaten by the dinosaur tree root.
