What's News

RIC to observe state reading week with lecture

Rhode Island College will do its part to observe statewide Reading Week, Feb. 27 to March 5, with a presentation of the seventh annual Reading Leadership Lecture on Tuesday, March 1, at the college. Bobby S. Goldstein, a reading specialist in the New York City public schools, author, consultant and member of the executive board of the International Reading Association, will talk on "Home and School as a Winning Team for Reading: Strategies that Work." Goldstein observes statewide Reading Week, Feb. 27 to March 5, and is a member of Sensitivity, a Vegas-style song-and-dance group that has performed throughout the United States and Far East. In addition to being a full-time student at Rhode Island College, Goldstein has performed with the group throughout the United States and Far East.

In autumn:

College enrollment fell nationwide

WASHINGTON, D.C. (CPS)—A new headcount suggests that college enrollment nationally fell this academic year after all, according to preliminary estimates released by the National Center for Education Statistics (NCES).

In September, NCES had predicted a slight increase in the student population this year. However, enrollment by males at RIC was 1.8 percent above the previous year's figures. However, enrollment by males at RIC was 1.8 percent above the previous year's figures. Delucia said that enrollment in the part-time category was down by 8.1 percent while full-time student enrollment, was down by 2.2 percent. "Combined with the expected drop in the number of 18-24-year-olds and the uncertainties about the availability of financial aid, the decline in the enrollment of women (nationally) is sure to affect overall enrollment levels," summarized Susan Broyles, an NCES analyst, in a written statement released with the latest college census.

A COED WITH SENSITIVITY: Linda Parente, a sophomore at Rhode Island College, has performed with the group, Sensitivity, throughout the United States and Far East.

Break a leg, Linda

By George LaTour

If success in life is achieved through one's effort and talent, Rhode Island College's Linda A. Parente is well on her way. In addition to being a full-time student majoring in management, she works in the college's athletic department office, teaches at a dance studio, judges dance competitions and is a member of Sensitivity, a Vegas-style song-and-dance group that has performed throughout the United States and Far East. In addition to being a full-time student at Rhode Island College, Goldstein has performed with the group throughout the United States and Far East.

The office of institutional research and planning reports that undergraduate enrollments at Rhode Island College for spring 1983 are at least as strong as last year. Some categories are showing increases. Graduate enrollments, however, are continuing a rather steep decline. According to Dr. Lenore A. Delucia, director of institutional research and planning, the stability of the undergraduate enrollments is a "very healthy sign" for RIC. Since four out of five students at the college are undergraduates, continued strong enrollments at that level will ease the effects of the significant drop in graduate enrollment which has been evident for the past six years. Official spring 1983 enrollments were taken on Feb. 15. For a full overview of the spring enrollments picture see the RIC FACTS column on page 6.

(continued on page 3)
Dear Editor,

To write a letter to the editor of a newspaper or magazine, you need to:
- Address the letter to the editor (e.g., "Dear Editor,"
- Introduce the topic of your letter.
- Support your观点 with facts or examples.
- Conclude your letter with a call to action or a closing statement.

For instance, you might write about a recent news event or issue that you feel strongly about. Make sure to keep your writing clear, concise, and respectful of others' opinions.

Best regards,

[Your Name]

---

Note: This is a general example of how to write a letter to the editor. The actual content of your letter should be tailored to the specific topic and audience you are addressing. Remember to proofread your letter for clarity and coherence before submitting it.
LINDA PARENTE WITH SENSITIVITY, the Las Vegas-style song-and-dance group that recently completed a Far East USO tour for the defense department. Linda is at far right.

"The defense department from time to time does hire professional groups to give USO tours for which they get paid," she said, adding, "it wasn’t to be a money-making tour, though.

They were to have their living expenses taken care of and little else.

But, "it was worth it for the exposure and experience," she later reflected.

On Nov. 30, 1982, it was off to Korea, Japan, Okinawa and the Philippines for an eight-week tour.

And yes, it is a small world after all! While Linda was performing with Sensitivity in Seoul, Korea, she ran into Cris Hynes at one of the military bases.

As part of the group’s routine, Linda, the youngest, had danced to "Fame and Endless Love" and sang and danced to "We Got the Beat.

"We do a lot of things together like New York, New York. We opened the show with ‘All American Girls’ and did a tap dance to ‘Boogie Woogie Bugle Boy.’ The guys did a Blues Brothers medley. One sang ‘Johnny B. Goode’ and we did a Dianna Ross medley," she said.

One reviewer from Yokosuka, Japan, where they had appeared on Dec. 17, said, "This high-stepping, show-stopping group of talented performers features outstanding comedy and dance routines.

Other reviewers on the tour referred to the group’s performance with words like "stupendous," "style," and "excellence." Linda and Sensitivity returned Jan. 21 of this year—"two days before school. It was terrible," said Linda with jet lag and everything," she confessed.

She enrolled at RIC in order to be able to commute to college which would give her more time for her dance practice and teaching.

Asked if such exhilarating experiences hadn’t gotten into her blood, the RIC sophomore hesitated, thought for a moment, and responded: "One in a million makes it—really makes it."

"A career as a dancer isn’t a long career, but I love it so much. That’s why I’m doing so much now," she explained.

Yes. She’d really love to "make it" in the big time as a performer—"I’ll try to keep up with music and dance"—but realize that she, the shows that might not occur—so, she’s preparing for a management-related position after college just in case.

After the Far East tour, Sensitivity decided to "take an extended vacation."

What Linda came home she found "a brand new car in the driveway with a huge bow on it"—a gift from loving parents who have followed her career with devotion.

"My parents really love the group (Sensitivity). They’ve flown out to see me perform in various places out in the Midwest," said Linda with obvious pride and appreciation.

"They’re very glad I’m home, though," she added with a sigh of relief for them. Will she rejoin Sensitivity if and when it re-forms? Does God make little green apples?

The offer has already been made by the U.S. Government: another USO tour—this time to Europe and Australia, scheduled for next fall.

"I’m not sure if they will do it, but I want to go," assures Linda.

She did miss the last day of finish school, however, and will return to RIC after any such additional tour or tours.

As far as the performing and traveling, it’s "just been a wonderful experience. I learned more in this past year than I ever could have doing something else. I wouldn’t have traded it for anything."

The stages of Europe and Australia. The smell of greasepaint. The roar of the crowd. The show must go on. Break a leg, Linda.

WINTER WAS VERY MUCH EVIDENT on the RIC campus last week but these coeds don’t seem to mind as they head for classes. See other weather-related photos on page 4. (What’s News Photo by Mark Hitchcock)
Holds honorary RIC degree:

**CASE's Fisher outlines national educational needs**

James L. Fisher, president of the Council for Advancement and Support of Education, recipient of an honorary doctoral degree from RIC and speaker at the inauguration of David E. Sweet, Rhode Island College's president, has called on collegians in higher education to address several issues he believes to be of major significance.

Speaking in late January to 1,500 college administrators at a CASE regional meeting at Lake Kiamichi, New York, Fisher asserted that the higher education community needs an institute to train its leaders. He also called for "a political action component" in higher education. Fisher said that more cooperation among different education segments is necessary and he advocated the "takeover" of intercollegiate athletics by college presidents.

Fisher said that an ongoing national investigation on leadership should be set up to "serve as an effective agent in selecting, orienting, and educating college president's" and other top leaders. He averred that a "sophisticated" political action component of higher education should be set up to ensure that its collective interests will be better represented in Washington, D.C. and the various state capitals.

Fisher also spoke of developing a plan which would foster cooperation and ethical behavior among all segments of higher education during "the coming period of potential deviancy." He noted that the American Council on Education's board of directors has already approved in concept a higher education unity compact for the 1980's.

Fisher pointed out that leadership has consistently been identified as the major problem of the 1980's in higher education. He said, "Too little is being done about the situation by professional associations, including CASE, and by colleges and universities and others. Certainly, able persons on campuses, in professional associations, foundations, and elsewhere could put together a renewed effort that would add new dimensions and perhaps include an at least coordinate, the present fragmented activities." He also called upon college presidents to "re-establish themselves" as the prime authorities in intercollegiate athletics. He said they continue to be "a major public embarassment."
More than 200 business, labor and educational leaders of Rhode Island gathered to hear Robert Van Fossan speak. Van Fossan said, according to RICEE's News, his topic was "Financial Services and Technological Changes." He is chief executive officer of Mutual Benefit Life. His topic was "Financial Services and Technological Changes."

The seminar will feature "state-of-the-art" training programs and products. Included will be microcomputers, robotics, microprocessors, digital systems, communications systems, and maintenance information. Experts will be available to explain the materials and equipment and to perform demonstrations.

The program is supported by the RIC department of industrial education and is co-sponsored by Occupational Training Service. Snow date for the seminar is Feb. 24 at the same time and location. For more information call 456-8009.

Advertisements up for spring 1983

Admissions—not to be confused with enrollments—are up at Rhode Island College by 17.8 percent this spring when compared to the same time last year. Enrollment, which is dealt with in the RIC FACTS column on this page, encompasses all categories of students studying at RIC. It includes returning students, re-admitted students, new students, part-time students, etc.

The increase is due to people coming to us with college experience,” said Colman, who could not pinpoint any one reason for the increase at this time. He did say that he feels that people who have previous college-level experience favorably compare the quality, cost and flexibility entailed in a RIC education and make their choice based at least partially upon these factors.

He pointed out that the college’s current awareness campaign in the media is emphasizing these aspects of studying at RIC and feels that it should continue to affect the population of potential transfer students as well as new students.

RIC student:

Ray Leveille is enjoying exchange to Canada

“McGill is a beautiful school and I certainly am enjoying my stay here,” writes Raymond Leveille, Rhode Island College’s first New England/Quebec Student Exchange participant. “I’m doing very well both academically and socially,” he observes, adding, “I would strongly recommend participation in this program to any eligible student at RIC.” Leveille is at McGill University in Montreal.

He is one of 26 RIC students who are taking part in the exchange program. Inaugurated in Jan., 1982, the program enables a student to attend a year at the host institution while remaining enrolled at his own school. RIC is among 24 New England institutions already committed to the exchange program.

To be eligible a student must be a citizen of the United States; have completed at least one year of full-time study in a degree program and be a permanent resident of that program during the year in Quebec; possess a command of the language of the host university (familiarity in all languages is a plus); have a good to excellent academic record according to the criteria of his/her own institution; and meet all specific requirements of both his own and the host institution. Brochures and catalogs from the Quebec universities are available at the RIC Center for International Education, Gaige Hall, 104. Details may be obtained from Dr. Carrie Lindquist, coordinator of international education at RIC at that address. Dr. Lindquist serves on the executive committee of the program as secretary. Since it is ongoing, students may want to look ahead to the future even if they are not in a position to apply immediately. Lindquist suggests Applicants must go through a screening process. The 1983-84 program begins in the fall and complete applications are due as soon as possible and must be received no later than March 5. For more information call 456-8006.

RIC FACTS

from the Office of Institutional Research and Planning

Official enrollments at Rhode Island College are reported in two ways. One is headcount, the actual number of people enrolled at the college. The other reporting method is called “full-time equivalent (FTE) credits.” This method counts students by the number of credits they are taking. Fifteen credits equals one FTE undergraduate, nine credits equals an FTE graduate student.

Overall college enrollment for spring semester 1983 is 69.9% headcount, 30.1% FTE. Therefore, the college has 419 fewer (6.7%) headcount students, but 86 (1.5%) more FTE students. The entire loss in headcount is at the graduate level.

As of this semester there are 4919 undergraduate degree candidates enrolled. This is 37 more students than last spring when there were 4882. The largest changes took place among full-time male students, a category which increased by 113 people. Part-time female students decreased by 97 and out of state students decreased by 99 students. The net effect of these and other smaller changes was an increase of 17.8 percent undergraduate degree students over last spring.

The FTE count for degree undergraduates, however, shows an increase of 17 percent. Students are carrying slightly more credits this year as noted by the fact that the average number of credits carried by full-time undergraduate degree candidates was 14.6 credits this year, while it was 14.3 a year ago.

Non-degree undergraduate enrollments show a similar pattern as degree enrollments, with headcount enrollments the same as last year but FTE up by 16 percent. Among the various categories of non-degree undergraduates there is a mixed picture. There is a small decline in the continuing education head count, 30 students. However, there is an increase of 17 FTE students (5 percent). Pre-matriculation students are holding at the same level as last year, but the Urban Education Center enrollment is down by 171 students, a 28 percent decline. There is a “healthy” increase of 218 in the visiting student category. This is mostly the result of enrollments in the early enrollment program with local high schools.

As observed on page one, while undergraduate enrollments are healthy, there is a continuing steep decline. Enrollment among graduate students. Over 450 fewer graduate students are enrolled this spring. Most of the decline is among nondegree students. There are 378 fewer of them this year and 83 fewer degree candidates. Overall this amounts to a 25 percent decline in graduate enrollments this semester over last year at this time.

For a detailed comparison of spring 1983 and spring 1982 enrollments see the summary enrollment report on this page.

Questions or comments about RIC FACTS should be directed to the Office of Institutional Research and Planning at 456-8435.
Rhode Island College has been selected as one of 25 colleges and universities throughout the nation to sponsor a Taft Seminar for Teachers in 1983.

Thirty elementary and high school teachers, administrators and librarians who have responsibility for interpreting and instructing people about government in Rhode Island will be nominated to participate. They will come from both public and private school systems.

The seminar at RIC will run from July 11 through July 22.

Democratic and Republican elected officials, political party leaders and other political experts will explore the operation of the two-party system. The seminar will also look at ways for individuals to carry out their political responsibility.

The seminar will be directed as it has been in former years at RIC by Dr. Victor L. Feldman, professor of political science, of 23 Randall St., Greenville. The Robert A. Taft Institute of Government sponsors the event. The Taft Institute directs its principal effort toward teachers. The organization sees high school and elementary teachers as having an important role in transmitting to future generations of leaders the concept of American liberties and the role of citizen participation in the political system to maintain those liberties.

The Robert A. Taft Institute of Government is an educational organization. It is non-profit and non-partisan.

To speak on arms race

Freeze Campaign Clearinghouse, He has been a participant at the White House with the National Security Council in discussions on U.S. relations with Vietnam.

Students, faculty and staff are welcome to the colloquium.

Accounting students may compete

Accounting students are invited to compete in the first annual Outstanding Student Manuscript Award sponsored by the Providence chapter of the National Association of Accountants.

The competition is open to students enrolled in accounting courses at Rhode Island or southern Massachusetts colleges.

This year's papers should address one of the following questions:
1) What are profit? and Is net income the best measure of financial performance?
2) Does emphasis on net income lead to poor long-range planning?
3) What measures can accountants use to evaluate activities that are long run (future oriented)?
4) Are there too many accounting standards?
5) And do we suffer from standards overload?
6) The papers, written by students, must be reviewed and approved by a faculty member. Deadline for receipt of paper is March 15.

Papers will be judged by a NAA committee. A $50 cash award will go to the first place paper plus a one year student membership in the NAA and a certificate. Second place will win a one year student membership in the NAA. Awards will be given at an awards dinner.

For details, contact George Jameson, president; Price Waterhouse and Company, 40 Westminster St., Providence 02903.

Grant extends pilot reading program

Mary M. Foye, assistant professor at Henry Barnard School, has received a grant from the Ginn Reading Company which will allow her to extend the pilot reading program begun last September under another grant, it was reported.

The original grant provided for a new reading program in grades 3 and 4. The new grant will allow for the extension of the program to grades 3 and 4.

Foye has received the new computer management software from the Ginn Company which will allow for the management of each child's reading progress, total class progress as well as parent reporting.

STUDYING THEIR PARTS for "Fiddler on the Roof" auditions are Steve Gardiner and Kathy Gaige, both theatre majors. Auditions were held last week. Here they take advantage of the quiet in the Whipple Gym. In back of them is the 'universal' used for exercise.

(What's News Photo by Peter P. Tobia)
The Rhode Island College Chamber Music Series will present a program entitled "Baroque (Not Bach)" on Wednesday, Feb. 23 at 8:15 p.m. in room 138 Roberts Hall.

Subtitled "faculty, friends and students of Rhode Island College," the concert will feature a mixture of performers.

Faculty members Barbara Poularikas and Robert Currier, in concert with students Russell Rathier, David Sironen and Esperanza Berry, vocalists, and Alexander Nicotra, Diane Duhaime, Paul Laprade and Diane Gualtieri, student instrumentalists.

Also appearing in the program will be Rebecca Truitt and Cheri Markward, friends of the RIC music department.

The selections to be offered will be "Sonata in E minor for Violin and Piano" by F.M. Veracini, "Sound the Trumpet" by H. Purell, "Partita IV from Harmonia Artificioso-Ariosa" by H. Biber and "Sonata in G minor for Violin and Continuo" by J. Loelie, and "Thy Hand Belinda Recitative," "When I Am Laid in Earth." Aria from Dido and Aeneas, by H. Purcell.

Rathier is a tenor, Sironen a baritone. Berry is a mezzo-soprano. Rathier and Sironen will sing Purell's "Sound the Trumpet" with Alexander Nicotra playing the piano. Berry will sing the other Purcell selection "Thy Hand Belinda" with Diane Duhaime and Diane Gualtieri accompanying her on the bassoon and piano respectively.

Poularikas and Sulliman will perform the Veracini sonata, Currier, Truitt, a cellist, and Duhaime playing viola, will be the ensemble for the Biber selection.

Markward, a violinist who serves as concert master for the RIC Orchestra, and Laprade, a guitarist, will offer the Loelielet sonata.

The concert is free and open to the public.

---

**Faculty exhibit**

An exhibition of works by the faculty of the Rhode Island College Department of Fine Arts opened at the college's Usurmon Gallery on Feb. 17 and will run through March 11. The show features work by faculty in all studio concentrations, including ceramics, design, fibre, metals, painting, photography, printmaking and sculpture. Gallery hours are Monday through Friday from 11 a.m. to 4 p.m. and Sundays from 1-4 p.m.

**Cancel ballet**

The Rhode Island College Performing Arts Series has announced with regret that Polish Mime Ballet Theatre scheduled for Tuesday, April 26, has been cancelled.

In place of the performance, the Performing Arts Series will offer Bower and Brugman's American Ballet Comedy. This group will appear on the same date, April 26, at 8 p.m. in Roberts Hall auditorium on the RIC campus. For more information call 456-8104.
