Following efforts by John S. Foley, Rhode Island College has been given the fourth spot on the ballot among referenda to be put before the voters of the state on election day, Nov. 6. "This is a big pluse," said Foley, vice president for College Advancement and Support. Foley is coordinating a campaign to build support for passage of the issue, a $2.27 million dollar project to convert Whipple Gymnasium into a center for Industrial and Business Technology.

There are no other higher education bond issues among the referenda on the ballot, Foley explained. The fourth position, assigned to RIC, is the first bond issue position. The three questions which come ahead of it all have to do with the state constitution and by law must come at the head of the ballot, Foley pointed out. "So RIC has the most favorable spot possible," he said. In describing the project and the ballot placement to college administrators at a meeting of administrators, Foley quipped that "RIC will be fourth on the ballot but first in the heart."

Passage of the bond issue will make it possible to RICO convert the 1948 Whipple Gymnasium structure to a center housing laboratory, production, seminar and classroom facilities. The intramural/recreation program currently located in Whipple will be moved to other equal or more appropriate space on campus.

The new center is necessary to accommodate the rapid growth of academic programs in industrial and business technology. It will also provide in-service training opportunities for individuals currently employed in business and industry and serve as a technological service center providing the latest information to local business and industry. Ultimately the center will contribute to the economic clime of the State of Rhode Island.

Plans call for the addition of a second floor within the existing Whipple building, increasing available space by 50 percent (20,000 to 30,000 sq. ft.). Of the total space, 85 percent will be used to provide space for laboratory, production, seminar and classroom facilities.

Laboratory facilities will be provided for materials processing/numerical control; electronics/computer; graphics; computer aided design/computer aided manufacturing; and materials/product testing.

In addition, a "flex lab" — an open space laboratory equipped with power, compressed air, gas, and exhaust systems — will be created.

What's

Rhode Island College

Vol. 5, No. 1, Sept. 4, 1984

At opening convocation:

Sweet reflects on past, eyes future

by Lawrence J. Savo, Jr.

Speaking before a nearly full Gaige Hall Auditorium, Rhode Island College President, David E. Sweet, called RIC's faculty and staff "transcendently better than, and infinitely more important than any plan, strategic and master."

Sweet's remarks capped an opening convocation for faculty and staff held Wednesday, August 29.

PRIOR TO Sweet's taking the podium the assembly, teaching and administrative staff of the college heard Albert Carlotti, chairman of the Board of Governors for Higher Education and Dr. Eleanor McMahon, commissioner of higher education. Carlotti commended RIC on its strategic planning efforts and acknowledged the college's ability to anticipate concerns. McMahon summarized three major initiatives which the Office of Higher Education and the Board of Governors took in the previous year. These included the "Technology in Higher Education, Initiative," the Summer Program in Science and Mathematics (co-sponsored by RIC and Providence College), and arrangements made with the Providence Journal to produce a planning guide and supplement aimed at eighth graders. The guide would help these students and their parents increase interest in adequate preparation for college.

McMahon concluded her talk saying, "Americans have always been an 'improving' people, given to associating for the purpose of purifying their spirits and refining their talents. The Chautauqua tent, the little red schoolhouse, the college campus and, indeed, the recent cascade of national reports on education stand as symbols of America's steady and evolving passion for improvement."

"In Rhode Island and, indeed, in this region, no higher education institution has pursued with more visible intensity the..." continued on page 6

Class of 2066

President and Mrs. David E. Sweet are indirectly responsible for recruiting what may be Rhode Island College's first enrollee of the Class of 2006. Are they jumping the gun? Well, not really. It's never too early to start lining up potential students. At least that's what our Admissions Office tells us.

You see, David and Arlene have just become grandparents of an 8 months old granddaughter, Lindsay Jocelyn Fondow, the daughter of Karen Sweet and her husband, Robin Fondow. The happy occasion took place on August 7 in St. Paul, Minnesota where Mr. and Mrs. Fondow relocated on July 1.

The baby and her parents are doing just fine, and so by the way, are the grandparents.
Focus on the Faculty and Staff

DR. WILLIAM H. ROBINSON, professor of English, will give the keynote address at the Philadelphia Convention of Phi Beta Kappa (An Aesthetic Appreciation on the Bicentennial of Her Death) at the Sheraton Inn in Naples, Fla., on July 27. His address is entitled “The One and Several Phillis Wheatley.” The conference is being sponsored by the department of English at Illinois State University.

DR. KENNETH F. LEWALSKI, professor of history, presented a paper entitled “Radical Reciprocity: Polish Participants in European Revolutionary Movements 1830-1848” at a conference sponsored by the Institute of Arts Sciences of America in commemoration of the centenary of the birth of the Polish anthropologist Bronislaw Malinowski. The two-day conference featured scholarly papers on Malinowski and other aspects of his history and culture.

KEVIN P. BINDER, director of transfers, has been elected president-elect of the Rhode Island Association of Admissions Officers. The association represents 13 colleges and universities in the state. Ongoing projects of the term are William Dutley of Roger Williams College, president; Elizabeth Finoc of Providence College, treasurer; and Nancy Panczyk of Bryant College, secretary.

DR. JANET MANCINI BILLSON, assistant dean of Arts and Sciences and professor of political science, was among the first 10 sociologists in the country to be certified by the Social Science Research Association (SSRA). Certification came in recognition of her work in facilitation groups and training scientific researchers in the social sciences. She will attend a special seminar on the creation of the SSRA and will be a member of the first regional committee of the SSRA.

Letters...

Dear Editor: I would like to thank everyone at Rhode Island College for their help and assistance they have given me as the college graduate. Your support is greatly appreciated.

My year of leave (of absence) promises to be a growing experience for me professionally and personally.

Working at the college has been a pleasant experience and has given me the opportunity to expand my professional career. Thank you.

Peter Toba

Galligan is runner-up

Am M. Galligan, an instructor in communications at Rhode Island College and member of the Warwick Business and Professional Women’s Club, was selected as first runner-up in the 1984 Rhode Island Young Career Woman competition held recently at the RIC Clubhouse.

Galligan had been named the 1984 Warwick Young Career Woman Association winner, now serving as assistant program chairperson for the former.

Winner of the statewide competition was Debbie Parente of Warwick. She will be assisted by a. S. State Police officer and instructor in criminal justice at the Regional College Police Academy. Galligan was among 15 young women from throughout the state who took part in the competition.

The winner of the state competition will be named as a 1984 TIAA-CREF investigator by the national society to participate in conferences held outside the U.S., Canada, and Mexico. The deadline cycle applies as follows: applications submitted March 1 must be for travel between July-October. Applications submitted July 1 must be for travel between November-January. Applications submitted November 1 must be for travel between March-June.

4. Council for International Exchange of Scholars—Fulbright Scholars-in-Residence Program: The purpose of this program is to strengthen the international dimension of U.S. scholarship by enabling colleges and universities to invite foreign scholars to teach regular courses or do research. Awards are made in over 100 world areas. A total of 100 awards are available. Grants include international travel, a maintenance stipend of approximately $1,200 to $2,000 per month, limited funds for books and materials, and basic medical insurance. Host institutions are asked to provide in-kind support. Next Deadline: Nov. 1, 1984.

5. German Marshall Fund—Fellowship Program: The program is for graduate research projects that seek to improve the understanding of significant policy, economic, political and social developments involving the United States and Europe, focusing either on comparative domestic or international issues. Awards are for a maximum term of or up to one year. Maximum award is $20,000 plus travel allowance. Next Deadline: Nov. 30, 1984.

6. Department of Education—Mina Shaughnessy Scholars Program: The program will provide approximately 15-20 awards of up to $20,000 during FY85. The awards are intended to allow selected educational practitioners to take time from their usual work schedules to step back and synthesize what they have learned to share their usable knowledge with broad communities of educators. Next Deadline: Nov. 1, 1984.

7. Health Resources and Services Administration—Nursing Special Projects: Grants to help schools of nursing address the serious shortage of nursing faculty and the need for increased availability and quality of nursing education through special projects such as increasing educational opportunities for individuals from disadvantaged backgrounds; increasing travel and education for nurses. Deadline: Nov. 1, 1984.

8. National Institutes of Health—New Investigator Research Awards Program: Special research projects will be awarded to investigators with meritorious research ideas in the various NIH institutes. To help bridge the transition from training status to that of established investigator, awards are restricted to individuals who have not previously been principal investigators on NIH-supported project. Applications are reviewed by NIH officials who are choosing their field of scientific endeavor for NEXT Deadline: Nov. 1, 1984.

Bureau of Grants and Sponsored Projects: Request for proposals

The Bureau of Grants and Sponsored Projects will be providing information and assistance for proposals for a research project with a regular basis in this column. Anyone interested in obtaining further information or making arrangements should call and send it to the Bureau in Room 312.

1. National Institute of Justice—USCF Unsolicited Research Project Grant: FY85 deadlines for its unsolicited research proposal program are as follows: proposal on research on adult crime and criminal justice, and its graduate research fellowships program. Next Deadline: Nov. 1, 1984.

2. National Science Foundation—Packard Fellowships: This program provides awards to experienced women scientists and engineers from industry, government and academia to serve as visiting professors at U.S. institutions. Next Deadline: Sep. 1, 1984.

3. American Council of Learned Societies—Travel Grants for Outstanding Achievement: Awards are for an academic term or up to 20,000 awards of up to $20,000 during FY85. The awards are intended to allow selected educational practitioners to take time from their usual work schedules to step back and synthesize what they have learned to share their usable knowledge with broad communities of educators. Next Deadline: Nov. 1, 1984.

4. TIAA-CREF Policyholder Trustees: The program is for the selection of one TIAA trustee and one CREF trustee. The purpose of this program is to strengthen the international dimension of U.S. scholarship by enabling colleges and universities to invite foreign scholars to teach regular courses or do research. Awards are made in over 100 world areas. A total of 100 awards are available. Grants include international travel, a maintenance stipend of approximately $1,200 to $2,000 per month, limited funds for books and materials, and basic medical insurance. Host institutions are asked to provide in-kind support. Next Deadline: Nov. 1, 1984.

5. German Marshall Fund—Fellowship Program: The program is for graduate research projects that seek to improve the understanding of significant policy, economic, political and social developments involving the United States and Europe, focusing either on comparative domestic or international issues. Awards are for a maximum term of or up to one year. Maximum award is $20,000 plus travel allowance. Next Deadline: Nov. 30, 1984.

6. Department of Education—Mina Shaughnessy Scholars Program: The program will provide approximately 15-20 awards of up to $20,000 during FY85. The awards are intended to allow selected educational practitioners to take time from their usual work schedules to step back and synthesize what they have learned to share their usable knowledge with broad communities of educators. Next Deadline: Nov. 1, 1984.

7. Health Resources and Services Administration—Nursing Special Projects: Grants to help schools of nursing address the serious shortage of nursing faculty and the need for increased availability and quality of nursing education through special projects such as increasing educational opportunities for individuals from disadvantaged backgrounds; increasing travel and education for nurses. Teaches ‘foreign’ language in Moose-Country

by George LaTour

If you teach French as a "foreign" language in one province and English as a "foreign" language in another, you must be in Canada and you must be pretty adept at both languages. Jeannette R. DeRoy, formerly of Central Falls and a 1967 graduate of Rhode Island College, is both and enjoying it very much. She must be. She's been doing it for more than 35 years now.

At present, she resides outside Rimouski in the Province of Quebec (about 160 miles north of Quebec City with her children, Riowen, 11, and Frankie, 8, and works out of CEGEP (initials that stand for a French college-level institution which provides in-depth study particularly of the English language) for people on their way to a university education. She also teaches in CEGEP in the Maritime Institute.

French, as you already know, is the language of the majority in Quebec.

"These people are eager to learn English because they know they'll need it," she says, explaining that her students will be merchant marines who must have knowledge of English in their radio communications among other duties.

Prior to this, she worked in a government school in Montmorency, New Brunswick, teaching French as a "foreign" language. "Government employees are encouraged to be bi-lingual," assures Jeannette who shares the view that the United States government should place more emphasis on the knowledge of foreign language, particularly for its diplomatic corps.

A daughter of Rosaire and the late Lucienne DeRoy, Jeannette annually takes the 600-mile drive from her little village outside of Rimouski to Central Falls to visit her father and sister, Rita De Roy, who also holds a degree from RIC...a master's obtained in 1972.

And, while she's in Rhode Island, Jeannette usually makes a point of visiting Rita De Roy, an associate professor of modern languages at RIC, and former teacher of Jeanette whom Professor Couture describes as "one of the top students" in foreign languages ever to graduate from the college.

Jeannette graduated with a degree in secondary education with major studies in French and minor in English.

She credits by merit of French to the bi-lingual education prevalent in some Rhode Island elementary schools such as Notre Dame in Central Falls when she was growing up.

"We were one of the last groups getting a bi-lingual education," she says. "In later years, she says, parents translating for their children who were with their mother in the RIC News Bureau and listening with interest. Both children are fluent in French and are now in the process of learning English, thus completing their bi-lingual education also.

Upon graduation from RIC Jeannette won a Fulbright Scholarship for study in France for one year. She spent one month in Paris and the rest of the time in "the provinces." "A Fulbright year abroad is a treat. It opened up a whole new world for me," she said with enthusiasm, and then as an afterthought added, "it was an interesting year. I learned a lot culturally.

While in France she met Jean-Francois Abgrall and a year later she joined him in the United States and they married. Back in the United States and Rhode Island, the vivacious young linguist taught in junior high schools in Westerly, Tiverton and South Kingstown for "a few years" while earning her master's degree from the University of Rhode Island, and then moved to Canada.

For the past five years she and her family have enjoyed the rugged life in northern Canada where the temperature often hovers around 30 degrees below zero in the winter months and where even on the hottest days in the summer one has to don a light jacket towards the day's end.

Jeanette reports that the cost of living in the village (population about 2,000) outside of Rimouski is higher than in the United States. "Because everything has to be brought in." Automobiles, for instance, run an "easy $2,000" above the cost in the U.S. One's only wish is to go back to "moose country."

At Administrative Conference: Goals for '84-'85 outlined

Some 60 college executive officers, deans, department chairs and directors marked the official opening of the college academic year at the annual administrative conference last week at Durfee's at the Pier in Narragansett.

President David E. Sweet presented his agenda for the 1984-1985 academic year (reprinted separately here) which covered such areas as the college's Strategic Plan and the newly approved System Master Plan.

"The enrollment projections summary with percent changes form 1983-1988 showed probable enrollment declining in all three state institutions.

Figures for the Community College of Rhode Island at mid-point of the projection (as opposed to the high and low points) shows a 2.4 percent headcount and a 4.6 percent headcount (FTE) per cent declines.

RIC shows a 2.6 headcount and a 7.7 FTE. The University of Rhode Island projects a 6.7 headcount and a 9.8 FTE, percent, all totals.

All three colleges had worked together and used the same procedures to come up with these projections, according to Dr. Lenore A. Delucia, director of institutional planning.

Dr. Richard Prull, assistant director, had actually worked up the RIC projections in consultation with Delucia and Dr. John Nazarian, vice president for administration and finance, and had, as a matter of fact, helped develop the methodology used.

Sweet termed the figures "critical data," and reminded that the college's Strategic Plan calls for RIC to remain level in its enrollment projections.

"Last year we said we could stay ahead of the projections curve. We still can, but we have to retain the 'high' and not 'mid' projections," Sweet said.

"We will not be reactive and passive, but active," the president affirmed regarding the college's attitude on recruitment and retention of students.

Over the past several years RIC had record or near record new student enrollments contrary to regional and national trends.

The president's agenda for 1984-85 calls for fall 1985 FTE enrollment to be "at least 6,933," i.e., "the best case projected for the college for the System Master Plan," enrollment of at least 1,000 freshmen in the fall of 1985; and retention of at least 50 more students who enrolled as freshmen this fall than it would normally retain.

The president said, under announcement of administrative changes this year, that the "highest priority" would be placed on retention and recruitment of students in the college's publications as well as would be reflected in the reorganization of the Office of Publications.

Despite a number of concerns as expressed by the president and the executive officers, morale was apparent that morale was running high at the conference, "the most essential function" of which was to have the administrators, faculty and staff leaders "get reacquainted," said Sweet.

President’s Agenda for 1984-1985

1. The College Strategic Plan and the System Master Plan: The college will complete a "ESCAP" Study for the System's Master Plan.

2. Enrollment Projections: Fall 1985 full-time equivalent enrollment will be at least 6,933 students, i.e., the best case projected for the college for the System Master Plan; will enroll at least 1,000 freshmen in the fall of 1985; and will retain at least 50 more students who enrolled as freshmen this fall than it would normally retain.

3. The Industrial and Business Technology Bond Issue: The bond issue for the System-Industrial and Business Technology Bond Issue: The bond issue for the System-
FOR MANY STUDENTS the beginning of the academic year is a time of anticipation and sometimes some anxiety. Above, Donna Krasicko of Central Falls looks over the course offerings, while Lori Webster of North Kingstown (top right) assesses the length of the line for the computer science classes. At right, Kathleen Weinert of Newport puts the finishing touches on a registration card with sons Evan, 3, and Christopher, 10 months, in tow.
Prelude to Success

**APPOINTMENTS**

(continued from page 1)

Stephen P. Ramocki, associate professor of economic management, B.S., University of Lowell; M.S. Clarkson College of Technology; Ph.D., Remscheid Polytechnic Institute.

Geraldine Testa, instructor of nursing, B.S.N., R.N., University of Rhode Island.

Carolyn Kroian Costa, assistant professor of computer science, B.S., Emory University; M.A., Boston University.

Rico Tomore, assistant professor of social work, B.A., University of Rhode Island; M.S.L., SUNY-Albany.

David C. Mainne, library assistant in circulation, B.A., Marietta College.

Ruth E. Mcavay, administrative secretary, B.A. and M.A., RIC.

Paul Maccallum, professor of biology, B.S. and M.Ed., RIC.

Lenore Collins, instructor of industrial education, B.S. and M.E., RIC.

Sara Nalle, assistant professor of history (two-year term), B.A., Bryant College; M.A., Johns Hopkins University.

Anthony E. Ricci, assistant professor of social work, A.B., Providence College; B.S., M.S.W., Boston University.

Lenore Collins, instructor of industrial education, B.S. and M.E., RIC.

Chelsee Szczepanek, assistant bursar, B.A., RIC.

**NEW FACULTY (TEMPORARY)**

Patricia A. Beizer, instructor of nursing, B.S.N., University of Rhode Island; M.A., Boston College.

Joan M. Kelly, instructor of elementary education, B.S., Rhode Island School of Design; B.A., and M.A., University of Rhode Island.

Audrey P. Olmsted, assistant professor of communications/theatre, B.A., M.Ed., and M.A., University of Northern Iowa; Ph.D., Indiana University.

Janet T. Macnaron, instructor of history, J.D., Warsaw University; Ph.D., Columbia University.

Patricia A. Thomas, instructor of nursing, B.S., University of Rhode Island; M.S.N., Bowdoin College.

Pamela G. Triplett, instructor-health/physical education, B.A., San Jose State University; M.A., California Institute for the Arts; M.A., Mills College.

**FACULTY REAPPOINTMENTS (CONTINUING)**

Pier Moreno, assistant professor of anthroplogy and (half time) director of public archiology, B.A., Johns Hopkins University; M.A. and Ph.D., Southern Methodist University.

Paula A. Kav, instructor of nursing, B.S., R.I.C.; M.S., University of Connecticut.

**NEW STAFF (TEMPORARY)**

Kenneth Hopkins, head baseball coach, B.S. in education, B.S., RIC.

Antoinette Littlejohn, counselor, special services, B.A., R.I.C.; M.S., Salve Regina College.

Kristen J. Norberg, head women’s basketball coach, B.A., RIC.

Gordon E. Rowley, college photographer, B.E.D., RIC.

Susan Costenides, counselor, special services, B.A., R.I.C.

Kathleen L. Laquille, athletic therapist, B.S., University of Rhode Island; M.S. Indiana State University.

**AGENDA**

(continued from page 1)
Expansion, but warned "higher education is big business, a $70-billion annual business," he said, adding that "economic systems in the country," he said. "We expect (this year's cost increase) to hold down tuition and fees, says Drury College President John Moore (right)."

"Companies are revealing, but no one knows why"

NEW YORK, NY (CPS) — The total cost of attending college this year will increase only 5.8 percent over last year on the national average, a new report by the College Board concludes.

The College Board's "Cost of College" report for 1984-85 says College Board President George Hanford, college costs have increased 18 percent over last year as colleges boosted tuition to keep pace with high interest rates and inflation. The comparatively small increase nationally in this year's college costs marks what many experts hope is an end to the double-digit cost increases of the last several years.

At public schools, moreover, the increase amounts to only a five percent rise over last year, making the total cost, $4,200 for four-year institutions and $3,998 for students at two-year schools.

At Rhode Island College this year's total costs for in-state resident students is $9,702 or $3,998 for students at two-year schools.

But Ludwig and College Board officials are quick to note they really aren't sure why costs increased so little this year.

"Everybody's been saying it's because colleges have finally caught up with expenses and because the economy is better," she says. "But we're really just using 10 to 11 percent because there aren't any other explanations."
RIC Chamber Music Series

The Rhode Island College Chamber Music Series fall schedule calls for eight performances from a folk recital on Sept. 12 to a full chamber orchestra concert featuring soprano Diane Alexander and John Pellegrino on trumpet as soloists on Oct. 31. All performances will be in Roberts Hall, Room 138, from 2:30 p.m. on Wednesdays unless otherwise noted. All concerts are free to the general public, with a special invitation to students, staff and faculty of the RIC community, reports Robert N. Currier of the music department.

Performances by date are:

- Sept. 12: A folk recital by Ed Swetney, a Providence-based folk singer who has appeared (with rave reviews) on campuses throughout the East, Midwest and Canada.
- Sept. 19: A (fetti) Musicall. This is a Baroque ensemble playing on authentic instruments of that period. Kathryn Roth will play Baroque flute; Scott Mccall, Baroque violin; Will Ayton, viola da gamba; and Glenn Giustari, harpsichord.
- Sept. 26: A violin recital by Elizabeth Monacelli with Carolyn Fodor on piano. Monacelli is a Cranston-raised violinist, now 18, who has won numerous competitions and been soloist with several orchestras, including a Boston Symphony Orchestra Children's Concert. Her performance here will include a combination of Bach's works and violin showpieces.
- Oct. 17: Piano recital Walter Schenkman, head of the piano department of the University of Northern Colorado, will give a program consisting entirely of Bach's Goldberg Variations.
- Oct. 24: French vocal chamber music. A group of Rhode Island vocalists will share this recital: Natalia DeRezendes, Judith Ann Eckloff, David Laurent, Donald St. Jean, Carl Swanson and Rosamund Walsworth.
- Oct. 31: Woodwind instruments. A chamber recital featuring woodwinds, counterpointed with strings, featuring Susan Wood, bassoon; Elizabeth Dean, French horn; and Philip McClintock, cembalo.
- Nov. 14: A guitar recital by Mark DelPrieta, an up-and-coming New York City guitarist-composer who has received critical acclaim for his many appearances in the United States and Canada. His program will be a preview of his New York debut-recital scheduled for Merkin Hall in January.
- Nov. 28: Chamber Orchestra with soloists Diane Alexander, soprano, and John Pellegrino, trumpet. They will perform Bach's Cantata No. 51 with a string ensemble conducted by Dr. Edward Markward. The string group will also perform an "outlandishly avant garde work" of the Baroque period: Biber's "Batalha."

The series is funded by the students of the college through the college's Fine and Performing Arts Commission.

Bannister Gallery sets fall schedule

To feature exhibits and poetry

Bannister Art Gallery fall exhibition schedule begins Sept. 6-21 with a Rhode Island College Art Department Faculty Show, a biennial exhibition of works by faculty from the various studio concentrations within the department. From Sept. 27 to Oct. 18 graphic and typographic images by Derrin Winkler, professor of design at Southeastern Massachusetts University, will be exhibited as "Anachronism/Retrospect and Prospect."

Winkler is a former director of publica­tions for the Massachusetts Institute of Technology, the Harvard Business School and Brandeis University. "Something Human/8 Boston Figurative Artists" is the title of an exhibition featuring the works of Judith Brassard Brown, Tom Curri, Al Ford, Franz J. Grebeur, Tim Hawkesworth, Ana Leon, Brenda Atwood Pinardi and Candace Walters from Nov. 1-23. Poetry readings will also be offered by Boston and Rhode Island poets. Readings will be from 5:30 to 6:30 p.m. Reception for artists and poets on Nov. 1 will be from 7 to 9 p.m. Further information on all of these exhibits will be published in advance of each exhibit, according to Dennis M. O'Malley, gallery director.

Gallery hours are Monday through Friday, 11-4 p.m., and Tuesday through Thursday 6-9 p.m. Receptions will be held first day of each show 7-9 p.m.

Other Places

Blows to Faculty Unions

Faculty members at private colleges and universities lost more ground in their efforts to bargain as groups with administrators for wages and working conditions.

In June, a regional National Labor Relations Board director ruled teachers at the Polytechnic Institute of New York are managers, not workers.

As managers, they can't force administrators to negotiate with their union. In July, administrative law Judge George McNerney similarly ruled that Boston University faculty members are managers because they participate in hiring and curriculum decisions.

Movin' on in!

MOVIN' ON IN to the dorms at Rhode Island College for the start of another academic year is Karina Baker of Connecticut. Fellow student, Joe Amaral of Coventry, gives her a hand.

Sue Katibian from Massachusetts.
